

DTXDUAL-PRINT™

CUSTOM DUAL PRINT SYSTEM

DIGITAL TEXTURING, **SIMPLIFIED**

The DTX Technicians at IKONICS have simplified the age-old mold texturing process again! With the use of a revolutionary new acid resistant, yet removable ink, the DTX Dual-Print system is able to increase precision application and drastically reduce the mold texturing process time. Print once, apply once. Precise quality imaging in half the time.

- One-step multi-layer application
- Clean application - no smearing or smudging
- Precise, repeatable pattern alignment
- Durable
- Superior heat resistance
- Adjustable print tackiness
- Available with both stretch and non-stretch carrier films
- Double the imaging with half the application!
